PRICING GUIDE 2023 - 2024

## CLIENT TESTIMONIAL

---

*“Well well well, what can I say about Colin?! Absolutely amazing photographer, a complete gentleman from the moment he walked through my door and we instantly hit it off. Friendly and accommodating and just a pleasure to have snapping pics on our big day. Colin made us feel totally at ease and took natural photos the whole day. By the evening time it was like he was one of our guests. He slotted in perfectly and half the time I didn’t even know our photos were being taken, making for very natural photographs. I couldn’t recommend Colin enough. An all round amazing human being and photographer”*

What to expect when

# You Book Me

I like to keep things nice and simple. By being on the same page it helps us both know what to expect when you book with me so it takes any guesswork or stress out of the process.

Planning a wedding can be scary. That is why I like to support you in any way I can. I am just an email away to offer advice & support on vendors, timings, dealing with awkward family.

## QUESTIONNAIRE

Around 8 Weeks before your big day I will send out a questionnaire to get information on your wedding. From times, locations etc. This will give me all the info that will help make your day run smoothly.

## MEET UP

After I get the questionnaire back we will set a date and time for a video call / meet up to talk over your big day. We will get times set for when and where I will be, when we will do family photos etc. Then after you can sit back and relax as I will look after your timeline

## THE BIG DAY

THE DAY HAS ARRIVED! This is where you get to have fun and enjoy all the hard work. And I will be there to your day.

## SNEAK PEEK

Around 2 days after your AMAZING day I will drop you an email with a few sneak peek pictures and share them on my Facebook.

## CLIENT TESTIMONIAL

*“Colin was the best photographer we could have hoped for on our big day. He captured every laugh, smile and memory of the best day of our lives. Every photo captured shows true emotion and I love the authenticity of every picture we now own. Colin was professional the whole day but also incredibly friendly and fit into the day perfectly. We have so many perfect pictures, I’ve heard from friends that getting your pictures taken can be long and a dragged out part of the day but that certainly wasn’t the case for us. Colin fitted around our day to make sure we got all the pictures we wanted but allowing us to enjoy our day to the fullest. All our family members commented on how lovely he was and have been delighted with the pictures we received from him! He really is amazing”*

When looking for your Wedding Photographer

# Think like this

**Instead of:** ❌

What do we want our wedding to look like?

Which is the cheapest?

What do these vendors deliver?

Will they do what I want?

What will \_\_\_\_\_ think?

**Try This:** ✅

How do we want to feel on our wedding day?

Whats our budget? How can we save in other areas to get the vendors we want that match our priorities?

How do they deliver their services? Are we just a number to them? Or do they offer a high quality service to us as a couple?

Do I feel comfortable enough communicating my vision and can I expect them to deliver a service that will blow me away?

Is this decision true to us as a couple? Does it match with our wedding and who we are as a couple?

**As a wedding photographer I am not just there to turn up on your day, snap a few pictures and send them to you in a gallery. We are on a journey together for months sometimes years. You want to find someone that will match with your values and who you both are as a couple. Whether that is me or another photographer you want to ask the right questions when looking for your photographer. And can deliver a service you both deserve.**

A romantic couple is captured in a close embrace, kissing. The man is wearing a light blue blazer over a white shirt and dark trousers. The woman is wearing a white, off-the-shoulder, lace-trimmed dress with a white fur stole. They are standing in front of a brightly lit carousel at night. The carousel's lights are warm and golden, contrasting with the cool blue tones of the surrounding night. The background is filled with the blurred lights of the carousel and other structures, creating a bokeh effect.
